Shared subscriptions: example price calculations

The easiest way to set up a Shared subscription is on our website. On the website you can add and edit all your group members' details, and your subscription price will be calculated automatically for you. You can then pay online, or request an invoice. Simply go to rootsforchurches.com/subscribe and we'll guide you through the steps.

Subscription administrators: if your role in the team is purely administrative, you can simply be listed as an Admin of the account. You don't need to pay to have a digital module if you don't need one.

Conversely, if you are an Admin who *does* use the resources, don't forget to include your own digital module(s) when you're calculating the total number of modules that you need.
